Pathmate.ai

AI CAREER NAVIGATION PLATFORM

Helping students navigate jobs, interviews, and applications with one AI one AI workspace.

Current Career Prep is Fragmented & Inefficient

The Fragmented Workflow

Job boards for searching (LinkedIn, etc.)

Separate resume builders & AI tools

Disconnected interview prep apps

Manual spreadsheets for tracking

The Result

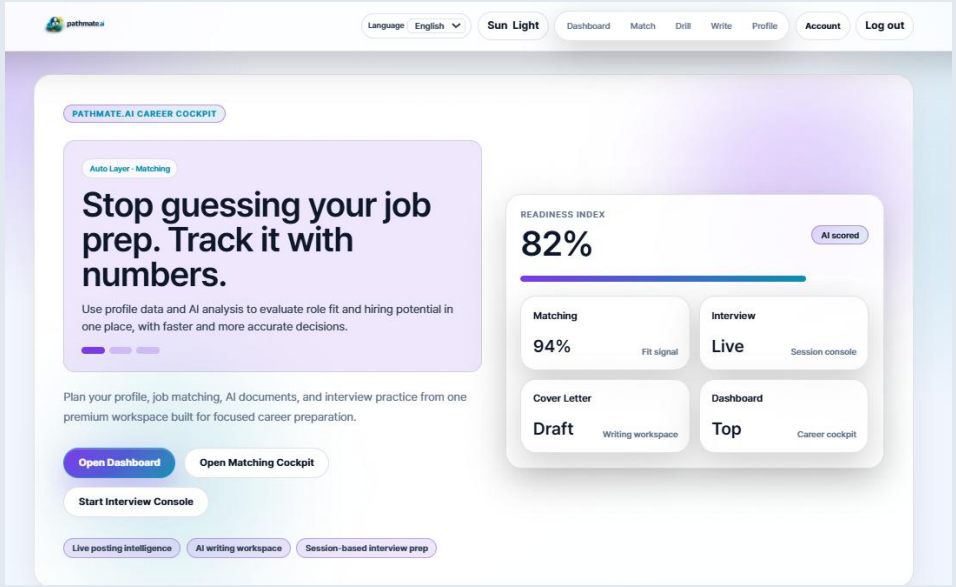

❌ Inefficient context-switching

❌ No personalization to your profile

❌ Hard to maintain consistent progress

Users currently waste energy on **managing tools** instead of **preparing for careers**.

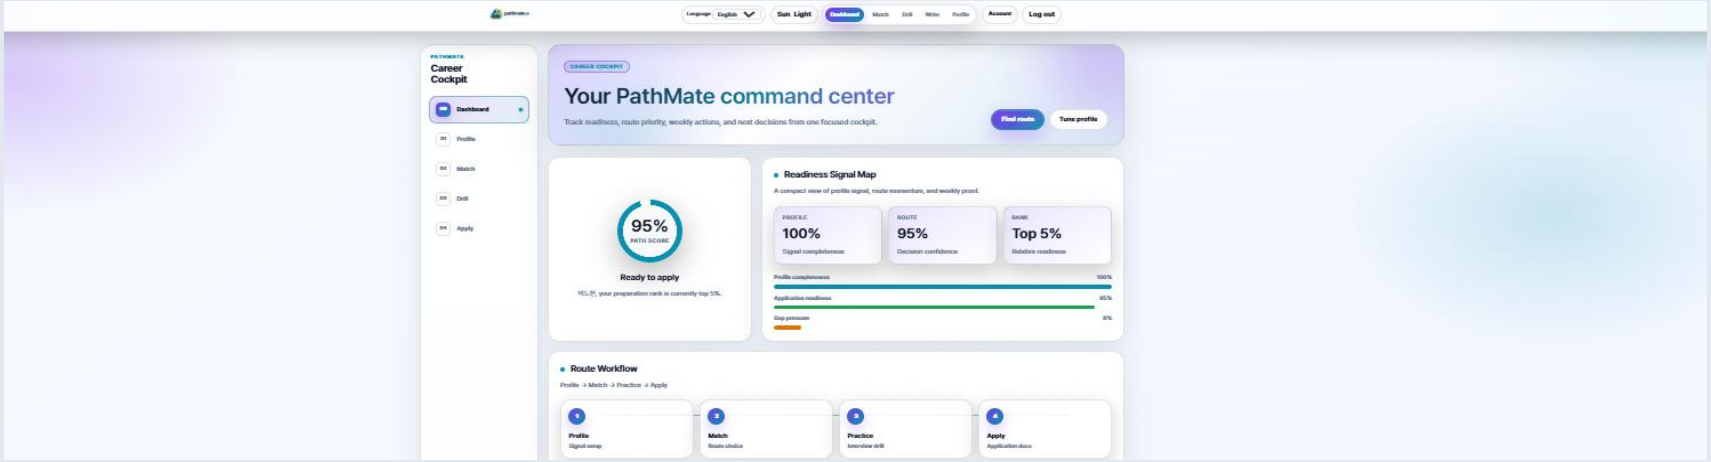

One Unified Career Command Center

- Career Dashboard
- Profile-Based Matching
- Mock Interview Practice
- AI Cover Letter Generator

Pathmate.ai integrates the entire user journey into a single, cohesive workspace.

Feature #1: Career Cockpit Dashboard

Readiness Score

Real-time assessment of your job market preparedness.

Weekly Tasks

Automated task list to keep you on track.

Route Workflow

Clear visual path through the application application process.

Decision Signals

Data-driven insights on where to focus efforts.

Why Important? Users need direction, not just tools.

Feature #2: Personalized Job Matching

AI Analyzes

GPA & Major

Technical Skills

Resume Context

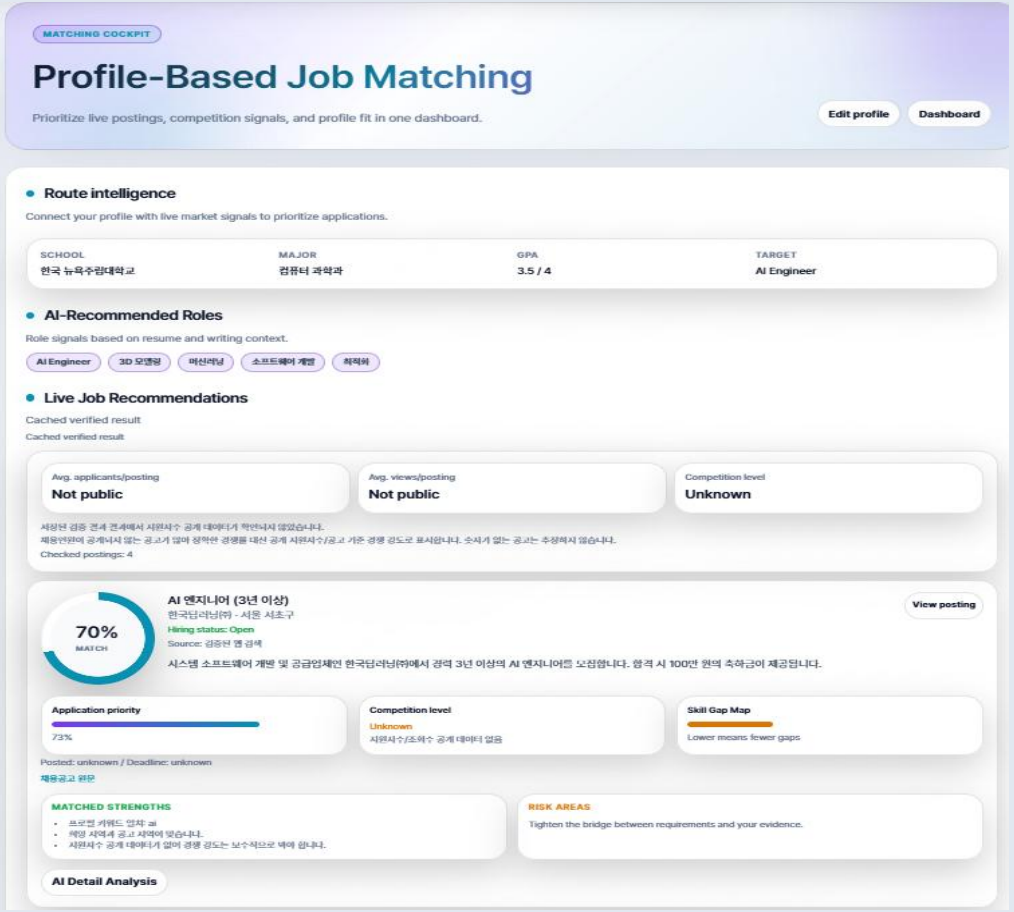

Job Role Fit

Actionable Output

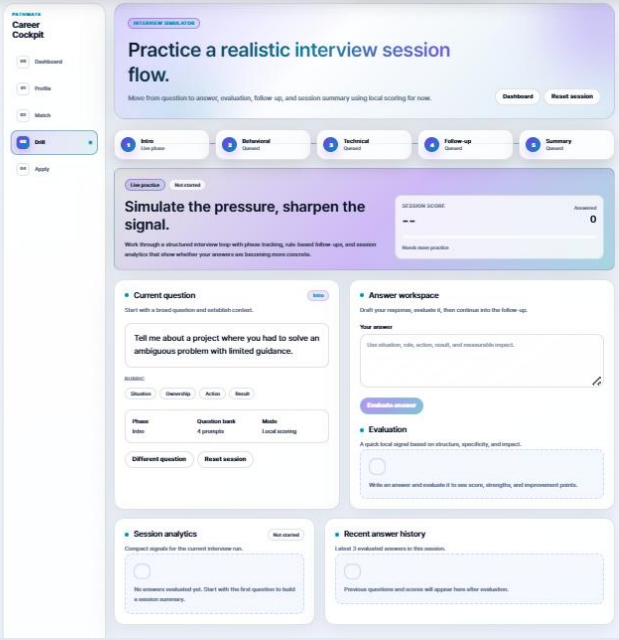

Match % Score

Skill Gap Analysis

Application Priority
